

SCUBA WARRIOR

EXPRESSION OF INTEREST

The Scuba Gym Australia together with our partners, invite you to consider the healing power of Scuba Diving. Research has shown that Scuba diving provides a unique environment with many therapeutic effects that can't be replicated on land. If I can breathe underwater, what else is possible? This is huge for all divers and especially those with disabilities, PTSD or amputees.

Scuba Diving is considered a high risk activity and is seriously good fun. Due to the risk involved it's important that all students complete the online component of the training prior to learning the practical skills. This should take a week (part time) to complete. If you are interested in joining our Scuba Warriors and are willing to put the effort into getting your Internationally recognized Open Water Scuba Diving certificate - we will give you the opportunity to **dive with a purpose**.

We have scuba missions lined for our Scuba Warriors to participate in after you have qualified including volunteering your time at The Scuba Gym where we provide Scuba Therapy to our clients with disabilities. If this is of great interest **please number** your preferred dates in order from 1 being best date to 4 being least preferred date. Then please tell us about yourself - fill in your personal details on page 2 and sign the form to acknowledge you understand and agree to the pre-requisites. Space is limited to a maximum of 5 students per course so be quick to decide and just do it.

Tick each Pre-requisites

	Complete a medical online which may require you to see a dive doctor for a dive medical (at your cost)
